Professor J. Lederberg
Genetics Department
Stanford University
Stanford, California

Dear Joshua;

Many thanks indeed for your most cordial note.
Of course I am delighted to be joining the Stanford
group, and you may be sure that my decision was
influenced in part by the fact that people like
yourself are already there.

I, too, look forward to the possibility of
participation in some endeavors of mutual interest
in our respective departments.

With warmest regards, and thanks for your offer
of assistance, which I may call on.

Sincerely,

Bill
